ABOUT US

With over 20 years of industry expertise, GLASS GALLERY has been at the forefront of transforming architectural and interior spaces through innovative designer glass solutions. As one of the few brands in India to manufacture designer glass locally, we played a pioneering role in making premium decorative glass accessible to the Indian market. Before our inception, designer glass was predominantly imported from overseas, limiting its availability and customization.

Today, our commitment to craftsmanship, quality, and innovation has resulted in the successful installation of over 10 lakh sq. ft. of glass across residential, commercial, hospitality, and retail projects.

From timeless textured glass to contemporary decorative designs, our extensive product range is trusted by architects, interior designers, builders, and homeowners seeking to create distinctive, light-filled spaces.

**GLASS
GALLERY**

TYPES

TEXTURED GLASS

FLUTED

Crisp parallel vertical lines.

- Enhances visual depth and architectural appeal.
- Easy to combine with metal, wood, and aluminum framing systems.

RAIN

Streaks of falling water.

- Distinctive rain-like texture enhances visual appeal.
- Resistant to moisture, making it ideal for wet areas.

FROSTED

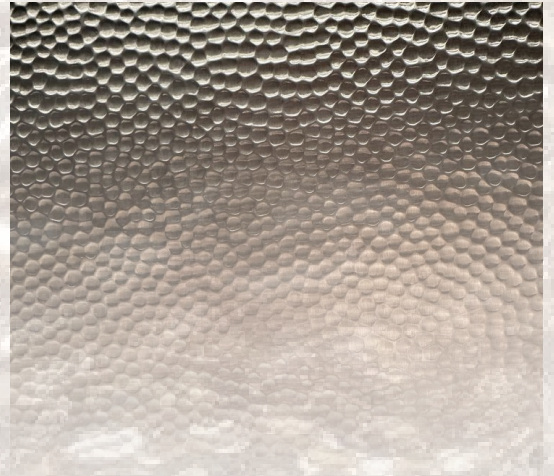

Matte Finish.

- Smooth, non-reflective matte finish with a premium appearance.
- Resistant to fading and peeling, as the finish is permanently etched into the glass.

HAMMERED

**Uneven surface of
Handbeaten Metal.**

- Distinctive hammered texture adds depth and character to any space.
- Conceals fingerprints and minor smudges better than plain glass.

FLEMISH

**Wavy historic character
of old glass.**

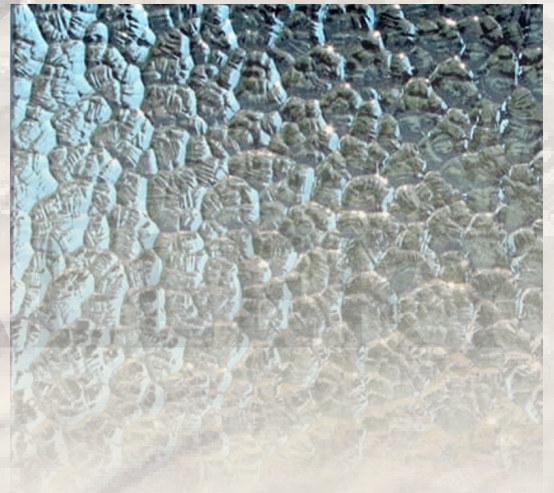

- Adds vintage charm and architectural character to interiors and facades.
- Suitable for both classic and contemporary design themes.

AQUATEX

**Wavy free flowing water like
ripples.**

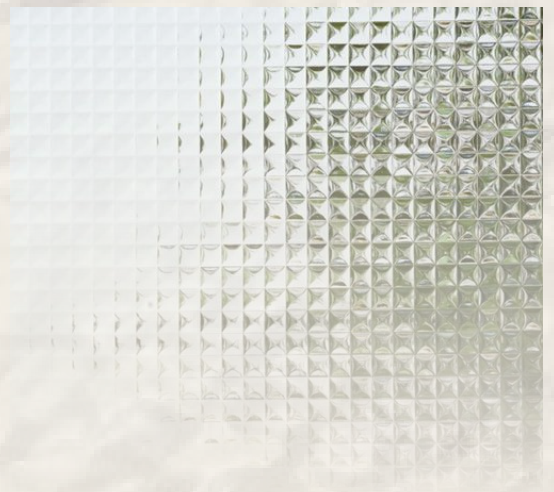

- Distinctive free-flowing ripple pattern inspired by moving water.
- Adds depth, texture, and a contemporary aesthetic to spaces.

GEOMETRIC

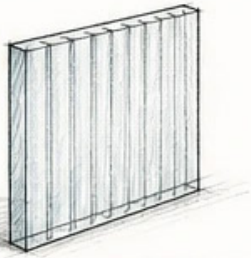

**Embossed with Diamonds,
Squares, Cubes.**

- Embossed with distinctive geometric patterns for a modern, structured appearance.
- Complements minimalist, industrial, and contemporary interior styles.

WHERE THEY CAN BE USED | APPLICATIONS

KITCHEN

- Used as cabinet door panels in upper kitchen cabinets.
- Used as swing or sliding doors for pantry units.
- Decorative glass can be used on the side panels of kitchen islands and front panel for breakfast counters.

WARDROBES

- Decorative glass is used as the front panels of sliding wardrobe doors.
- Decorative glass is installed within aluminium, wooden, or metal-framed hinged wardrobe doors.

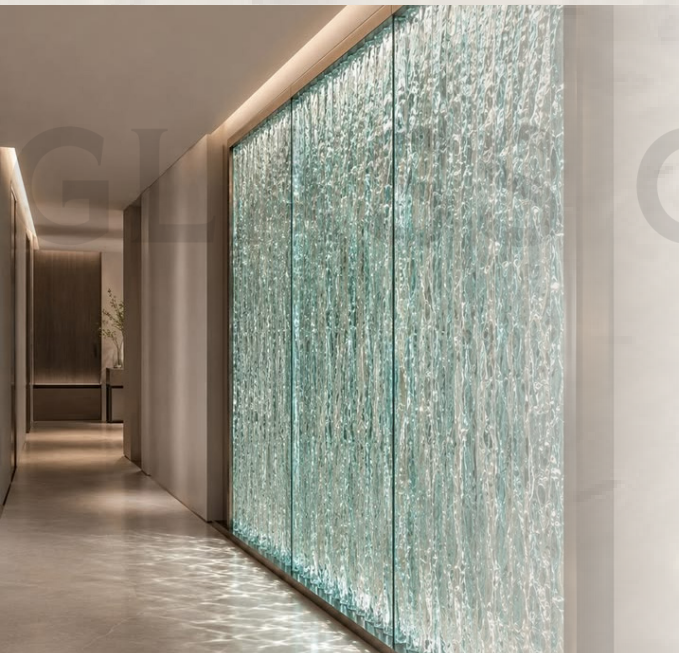

WASHROOM

- Decorative glass is used to create fixed or sliding shower enclosures, providing a clean and modern bathroom layout.
- Used as partition panels to separate toilet areas from vanity or bathing spaces.
- Used as an accent wall to create a luxurious focal point.

PARTITIONS

- Used to divide the living room from adjoining spaces while maintaining an open and airy feel.
- Used to separate the kitchen from the dining area while preserving visual connectivity.

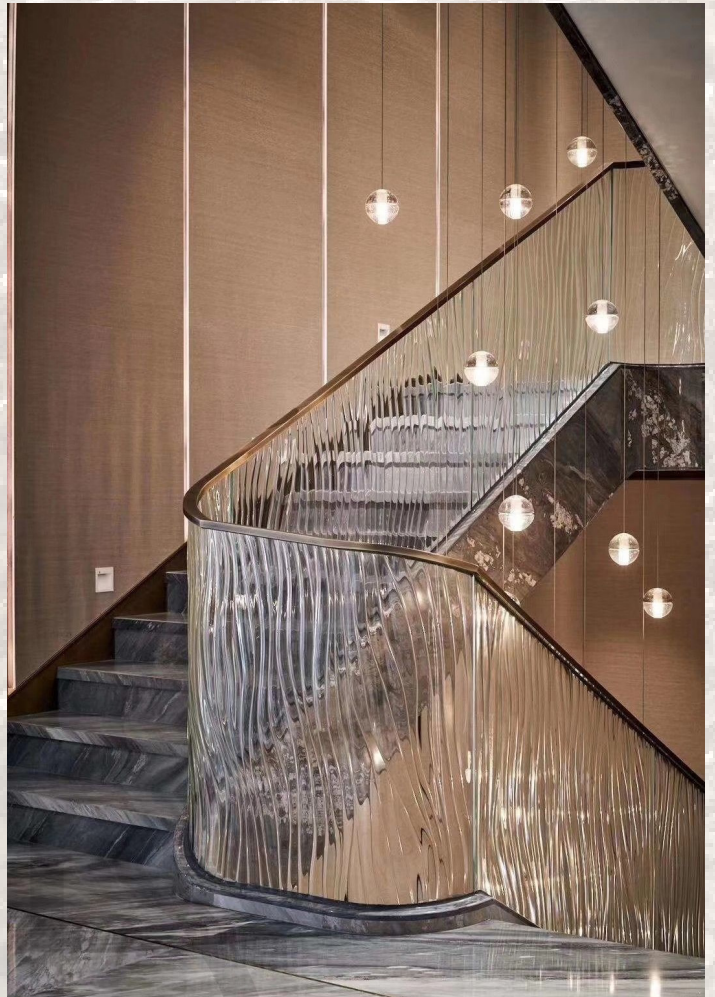

FEATURE WALL

- Decorative glass is used as a premium cladding material for feature walls in both interior and covered exterior spaces.
- Used behind televisions, sofas, fireplaces, or display units to create a distinctive feature wall.

RAILINGS

- Designer glass is used as the infill panel for staircase railings, offering a contemporary and elegant appearance.
- Used as a protective railing panel for balconies, terraces, decks, and indoor atriums.

SKYLIGHT

- Designer glass is used in skylights to bring abundant natural daylight into interior spaces while enhancing architectural aesthetics.
- Creates bright, open, and visually appealing environments, reducing the need for artificial lighting during the day.
